Skills

Technical Skills:

- Java, C#, PHP Laravel, JavaScript
- MySQL, phpMyAdmin
- Visual Studio, VS Code, Git & GitHub
- Unit & Integration Testing (Jest, Vitest, Selenium)

- Figma – UI/UX Design
- Front End Developer
- Web Developer
- Troubleshooting

Soft Skills:

- Communication
- Problem-Solving
- Time Management
- Adaptability & Willingness to Learn
- Patience

Project Experience

WisEnergy — IoT + AI Energy Monitoring System (Capstone)

May 2025 – December 2025

Role: *UI/UX Designer*

- Conducted basic user testing to improve layout clarity and ensure smooth user navigation.
- Designed mobile app screens using Figma and Canvas to create clear and easy-to-use interfaces.
- Utilized **Figma and Canva** to enhance visual consistency and achieve a more modern, user-friendly design.

Lifewood Website Clone

March 2026 –April 2026

Role: Developer

- Developed a responsive company website clone using TypeScript, React, HTML, and CSS.
- Built and integrated backend functionalities using Supabase for data management and authentication.
- Designed intuitive user interfaces and implemented responsive layouts to enhance user experience.

CCS Programming Talent Monitoring System

Apr 2023 - June 2023

Role: C# Developer

- Built forms, data handling, and CRUD functions for student skill tracking.
- Implemented validation and error-handling features to ensure accurate and secure data entry.
- Developed the system using **Windows Forms and ASP.NET** to create a functional and user-friendly interface.

WisEnergy — IoT + AI Energy Monitoring System

May 2025 – December 2025

Role: Unit & Integration Testing

- Used **Jest** to test components and logic.
- Utilized **Selenium** for automated browser testing to ensure UI functions and user flows worked correctly.
- Created unit tests to verify each function works as expected.
- Performed integration testing to ensure modules work together without errors.

WhatsApp Auto-Reaction Automation

May 2026 – June 2026

Role: Developer

- Built a Python automation tool that automatically reacts to incoming WhatsApp messages.
- Implemented automated workflows to reduce repetitive interactions and improve efficiency.
- Utilized scripting and automation techniques to streamline message handling processes.

Training / Seminars Attended

-
- ICT Congress (2023, 2024, 2025)
 - WEB DEVELOPER CERTIFICATE: Call Center Academy 2021-2022
 - Network Tutorial 2024 – University of Cebu Lapu-Lapu and Mandaue
 - Cybersecurity and Privacy in Focus: Awareness for the Digital Age (2024)
 - Tech Talk: DB Programming
